

The Reentry Success Group is a purpose driven organization providing;

- Cutting transformational programming
- Transitional and Sober Living Homes
- Case Management
- Employment readiness
- Comprehensive life skills
- Circles of Support and Accountability (CoSA)

About Us:

At The Reentry Success Group, we believe that a person's past is not a permanent barrier to their future. We teach practical, actionable, common-sense steps to help people use their past to power their future.

Our data-driven approach focuses on three key pillars: **Economic Self-Sufficiency, Behavioral Health Stability, and Community Reintegration.** We turn the "reentry cycle" into a "success trajectory," delivering a measurable return on investment and a restored life for our participants.

We don't just offer a place to stay; we provide a community to belong to. Our approach is rooted in the principles of Sober Living, Restorative Justice, moving beyond simple compliance toward true transformation. By addressing the "whole person" — housing, employment, and emotional resilience — we reduce recidivism and strengthen the fabric of our neighborhoods. We are not just helping individuals return to society; we are helping them lead it.

Original Programming: Our Core Impact

Most of our programming is already licensed and successfully used on every tablet in the United States. Almost all of our content is multi-lingual (Spanish). Our integrated courses can be used in any of these formats:

-Video/mp3 or DVD

- SCORM
- With workbooks, led by a Facilitator, staff, or peer proctored.
- Self-guided

A Comprehensive Ecosystem of Success

Our programming is designed to meet individuals exactly where they are, providing the specific tools required for long-term stability:

- **Transformational Housing:** More than sober living, our homes are sanctuaries of accountability and growth, providing the safety needed to focus on the future.
- **Level Up Academy:** A rigorous curriculum focused on life skills and professional development.
- **Circles of Support:** Based on proven restorative models, these groups provide the social capital and community connection essential for preventing isolation.
- **The Reentry Success Series:** An entire comprehensive reentry program in a single package, the Reentry Success Series addresses internal, external and social principles to give learners the keys to succeed in the free world.
- **The "Illegal to Legal" Program:** A specialized initiative helping individuals translate their street-hustle grit and entrepreneurial instincts into professional development, ensuring our members aren't just getting jobs, but building careers. and foundational legitimate, thriving business practices.
- **CGA 12-Step & Restorative Justice:** We integrate traditional recovery with justice-oriented healing, allowing participants to make amends and reclaim their personal agency.
- **Art Therapy:** Using proprietary programming we developed with our own in house certified art therapist, who holds a Master's in Psychology and has 30 years experience teaching art to at risk populations, our art therapy program is more than a recreational activity: it enhances mental health, reduces stress, enhances self-esteem, strengthens problem solving skills, and so much more.
